

## Event Programme

# Appropriate and Proportionate Risk Assessment Course 10 December 2020, Manchester Airport Marriott Hotel, Hale Road, Hale Barns, Altrincham WA15 8XW

### Who should attend?

You should attend if you undertake, participate in or manage risk assessments in the process industries. This will include managers, supervisors, engineers, operators, technicians, chemists and health & safety professionals.

### Why attend?

This one day open course will enable you to:

- Understand the principles which underlie all types of Risk Assessment
- Ensure your Risk Assessments are proportionate and appropriate
- Manage the Risk Assessment process within your organisation or department

The course uses practical workshops to aid learning and provides you with tools, tips and techniques you can take away and use.

Throughout the day you will be able to put your questions to an expert in risk assessment, and engage in discussion with other learners to share good practice.
