

**Event programme**

**Your REACH and CLP advantage**

**Navigating UK REACH**

**8 September 2021, 09.30 – 12.30, via web-based training**

**Who should attend?**

Delivered in conjunction with Dr Knoell Consult Ltd (www.knoell.com), our half-day online course is ideal for those who need to understand their REACH obligations in the UK to ensure that they can maintain market access. Designed to provide practical advice to companies, this workshop will help you to navigate through your compliance obligations wherever you sit in the supply chain.

**Book by 8 August 2021 for the early booking rate.**

**Why attend?**

With the end of the transition period on 31 December 2020, EU chemicals regulations such as REACH have stopped applying to Great Britain (GB) and have been converted into UK regulations. Although similar in structure, EU and UK regulations operate independently from each other. Whether you are a manufacture or importer already holding a REACH registration, or a downstream user relying on your supplier's REACH registration, you may have new compliance obligations to consider.

This half day workshop is designed to take participants through the process of planning and to support companies on how to meet their compliance obligations. As with our all our workshops, we limit delegate numbers and use an informal style so there will be plenty of opportunity for discussion and questions.

This workshop will:

- ✓ Summarise the current political situation and key dates
- ✓ Highlight the new obligations for companies based in Great Britain
- ✓ Provide practical advice on how to prepare and ensure supply chain continuity
