

Event programme

**Troubleshooting Poison Centre Notifications -
When and how to update your PCN**

Monday 6th December 2021 (09.30 – 11.00), virtual training

Why attend?

Article 45 of the CLP Regulation requires businesses to notify poison centres with information on mixtures that they place on the EU market. It affects almost all hazardous mixtures across the supply chain right through to the end consumer use. This webinar is designed to help companies troubleshoot their poison centre notifications.

This course will help companies wanting to know when and how to update their poison centre notifications.

This webinar will help you learn:

- ✓ When and how to update poison centre notifications
- ✓ how to avoid common issues and misunderstandings

Who should attend?

Our **Troubleshooting Poison Centre Notifications** webinar series is aimed at business, regulatory managers and practitioners working in companies that will need to notify mixtures they place on the market. The webinar is ideal for anyone who needs help with the practical know how of completing poison centre notifications.

Programme:

| | |
|--------------|---|
| 09:30 | Welcome Introduction to CLP, Article 45 Regulation |
| 09:45 | When and how to update poison centre notifications |
| 10:30 | Break |
| 10:35 | Common issues and Misunderstandings with Q&A |
| 11:00 | End of session |

Practical exercises will be held throughout the day to help understanding of key concepts, and there will be plenty of time for discussion of problems that delegates may be facing.
